Members and Friends of Grace Church

A Report from the Trustees of Grace Church

Summary

Over a period of the last three years, the Trustees have been primarily focused on identifying and correcting safety hazards and physical barriers of access at Grace Church.

Our building has physical barriers that limit access and use by Members and Non-members that may have ambulatory challenges.

- Multiple floor coverings with many transitions from space to space
- No family bathroom or bathroom that is handicap accessible
- No handicap exterior doors

We have noted a number of safety hazards within the building.

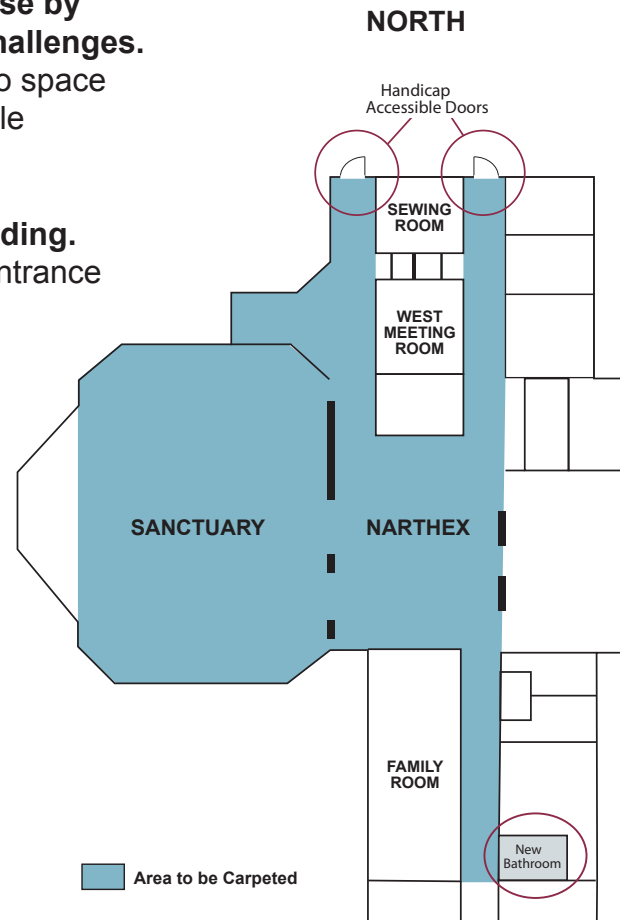

- Water, Snow, and/or Ice on the tile floor at the Northeast entrance
- Water, Snow, and/or Ice on the tile floor in the Sanctuary
- Flooring Transitions: tile to carpet, carpet to carpet, carpet seams and metal carpet trim

To resolve these issues the trustees have recommended to both the finance committee and the church council that we install carpet tile, handicap door openers, and a new ADA compliant handicap accessible family bathroom.

The total cost to complete these projects is \$61,731.

With their approval, we are now asking for your financial support.

Bob Hanna
